Fitsch Ningbo International Trade Co. Ltd

Fitsch Holdings is a specialized tiered supplier of hydraulic fittings. We can efficiently and effectively leverage advantageous resources from our supply chain partners. Our partners form a robust community with shared interests, and we keep exploring better solutions to continuously deliver quality service to customers.

Fitsch draws core resources from upstream manufacturers within the industrial chain. With over 15 years of operational experience in hydraulic fittings, we have built a network of qualified specialized suppliers covering forging, machining and electroplating processes. Our product portfolio includes nuts, cutting rings, screw plugs, split flange halves, DIN fittings, SAE fittings, hose fittings, lubrication fittings, stainless steel fittings, hydraulic ball valves, non-return valves, test point fittings, compression tube fittings and more.

Fitsch is your reliable, flexible supplier of carbon steel and stainless steel fluid connectors. Our ISO-certified products feature premium quality and are interchangeable with products from major brands' catalogues. We maintain inventory of standard fittings, allowing us to fulfil orders faster than competitors. Whether your order is under 50 pieces or as large as 50, 000 pieces, we can accommodate your requirements effortlessly. We strive to deliver a seamless business experience and serve customers across the globe.
